Laxative Bromo-Quinine Tableta

The story of Mrs. Matilda Warwick, of Kokomo, Ind., as told below, proves the curative properties of that well-known female remedy, Wine of Cardui. Mrs. Warwick says:

If Will Help You "I suffered from pains in my head, shoulders, limbs, side, stemach low down, dizziness, chills, ner-Yousness, fainting spells and other female troubles. I was almost dead. Three doctors did not help me. At last, I took Cardui, and with the first bottle obtained relief. Now I am cured. But for Cardun,

I would have been dead." Try Cardui. AT ALL DRUG STORES

Francis Engrabing Machine.

The J. L. Roark Estate, furniture dealers and undertakers, has added to its equip ment in the undertaking department a Francis Engraving Machine, as illustrated This machine is one of the very few in the State and goes to show the progressive spirit of the management in providing equipment generally considered 'necessary only in the larger cities. With this machine the firm will now be able to supply ndividually engraved casket name plates, instead of the stamped stock patterns usually employed. And while the city undertakers make a charge of \$5 for such plates the people of this county will receive them absolutely without extra cost egardless of the character of outfit purchased. The machine has been in the show window of the firm for some days, and its beauty, and the perfect work it does, have been admired by hundreds of people. Articles of eyery character can be engraved in much better manner than usually done by hand.

This machine adds to the most complete undertaking establishment in this territory The firm has the only practicing licensed embalmer in the county; a fine funeral car; argest stocks of coffins, caskets, robes, wrappers, slippers, etc; complete equipment or sanitary work and disinfection. To provide the best in every branch is the constant study of the management, and the generous appreciation shown by the public has caused still deeper and greater determination on the part of the concern to give constantly improving service, and on the most favorable basis. With this in view. other features will be added from time to time, as they appear.

The Francis is fitted with all attachments for engraving articles of any character, and the mechanical perfection of the machine appeals to all. The public is given a special invitation to call at any time and see the machine
